

82nd Annual Meeting, June 1st-6th 2014, Bali, (Indonesia)

The 82nd Annual Meeting of ICOLD will take place in Bali, Indonesia, from 1 to 6 June 2014.

More than thousand dam experts, engineers, scientists, consultants, operators, as well as high level representatives from governments, NGOs and Development Banks will meet in Bali, for the 82nd annual meeting of ICOLD.

Bali has a proven record of hosting international events and offers the opportunity to see its boundless variety of unique sceneries as well as countless traditional and cultural heritages.

An International Symposium on the theme "Dams in global environmental challenges", with seven sessions (more details here) is organized on June 4th.

Eight pre-meeting and post-meeting study tours are proposed to make your visit to Bali still more interesting, combining gorgeous touristic views with the most interesting dams and water infrastructure built in Indonesia.
