

Annual CDA Conference & Exhibition, October 5-10, 2013, Montréal (Quebec, Canada)

Opening to the World

Mark your calendar for the 2013 CDA Annual Conference & Exhibition, with dozens of professional development sessions, an exhibition hall and networking opportunities.

With the theme of this year's Conference "Opening to the World", the Organizing Committee wants to provide a forum for gaining a wider perspective on the dam industry. As many CDA members are aware, the Canadian dam community through CDA is very active in various committees of the International Commission on Large Dams (ICOLD). A special session will be held, as part of the conference program, to inform delegates of the current ICOLD activities.

Important Dates

Pre-Conference workshops: Oct. 5&6 (Saturday and Sunday); Conference: Oct. 7-9 (Monday-Wednesday); CDA Annual General Meeting: Oct. 7 (Monday); Technical Tours: Oct. 10 (Thursday)

Technical Program

An interesting technical program has been developed for the three days of the conference. Click on "Technical Program" on the menu bar on the left for more details. For specific details on the Workshops and the Technical Tours, please access these program details from the menu bar on the left.
